

Congressional serial set Volume 5482

By United States. Government Office

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 32 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1909 Excerpt: . . . farmers do not plow on an average 6 inches deep, and it appears to me that a bulletin gotten out by the Department of Agriculture showing the necessity for deeper cultivation, especially for the growing of beets, and the benefits that would accrue to other crops from this method of plowing would certainly be of great assistance to those engaged in this work. Factory No. 14. --This factory is drying pulp. The drying plant was installed this year. The Michigan Experiment Station has just concluded and published the results of an interesting experiment with dried beet pulp in comparison with corn in fattening steers. I reproduce portions of this bulletin containing an account of this experiment and a summary of results: 0 Bulletin No. 247. R. S. Shaw and H. W. Norton, jr. DRIED BEET PULP FOR FATTENING STEERS. With the development of the beet-sugar industry...

Reviews

An exceptional publication as well as the font applied was intriguing to learn. It usually does not charge an excessive amount of. Its been designed in an exceedingly basic way and it is just after i finished reading through this book through which in fact altered me, modify the way in my opinion.

-- **Haylee Hackett**

It in a of the best ebook. It generally is not going to expense excessive. It is extremely difficult to leave it before concluding, once you begin to read the book.
