Reviews

This pdf is indeed gripping and interesting. It is definitely simplistic but shocks within the 50 percent of your book. Once you begin to read the book, it is extremely difficult to leave it before concluding.

A TIME-SAVING, EASY AND INTERESTING WAY TO MASTER ECONOMICS IS HERE IN THIS BOOK! To many GCE A Level students, a number of concepts in economics are abstruse and daunting, even dry and boring. This book addresses this problem by bringing such concepts down to a bitable, digestible and interesting level. GCE A Level students and students preparing for other economics exams such as the BBA, RSA, LCCI, GRE, and even the GCE O Level, exams should find this book useful, interesting and reader-friendly, especially for quick revision. The book covers more than the GCE A Level Economics syllabus. There is a slew of very important economic knowledge and insights in the Quick Revision Notes, Articles To Stimulate Economic Reasoning and Appendix. There is also a number of useful business ideas, e. g. , marketing concepts, entrepreneurship, finance and banking, etc. , which should be of interest to both economics students (who are budding or potential business practitioners) and business practitioners alike. The ideas in this book are expected to stimulate, provoke, thought, interest, even controversy and debate, as economics is not an exact science - this should make economics meaningful and come alive (and not just another boring subject for passing exams). The author is optimistic, and, hopeful, that the implementation of these ideas would solve or, at least, alleviate our economic and social...
