Where nothing but rabbit and fern abound to-day will be transformed into a smiling garden. JNO. D. CONNOLLY, Consul. United States Consulate, Auckland, June Jo, iSgo. THE HANNAFORD ELECTRIC LIGHT-HOUSE. REPORT BY CONSUL CONNOLLY. OF AUCKLAND. This is an important invention, which, if it proves successful, is destined to revolutionize the light-house system of the world. Many competent engineers and electricians in New Zealand who have examined the plant and working models unhesitatingly declare their belief in the practicability of the scheme. The Hannaford Light invention embraces a number of improvements in the construction of cast-iron towers for beacons, or light-houses, including windmill attachment for generating electricity to be stored and used in the form of light for the lantern and of power to turn the windmill in times of calm and ring a bell during fogs. Mr. Hannaford, the inventor of the light, has worked it privately for some years before making it known to the world, until now it is as nearly perfect as possible. Not only are the foundations and frame-work designed with great care and skill, but the electric and other attachments are so devised as to be almost entirely automatic in their action. I append the following extract from a communication in the New Zealand Herald of the 16th of April, 1890, written by Mr....
