SNAKE-BITE.--Draw a cord tightly around the limb above the bite, between the place bitten and the body, to prevent the poison entering the circulation through the veins; then cut out the place bitten with a sharp knife, and allow it to bleed a little before removing the cord. Give the patient internally, all the whiskey he can drink; or, if no signs of intoxication are produced by it, give from a quart to a gallon in six or eight hours, and gradually decrease the quantity when its effects are perceptible; but do not stop its use too soon. Give also two to four pounces of olive oil every two or three hours, until it moves the bowels freely. Appearance Of Scald-he At. SLEEPLESSNESS.--The receipt given above for sick-headache No. 1 works admirably in most cases. SOKES AND ULCERS No. 1.--Take of...

Reviews

Extensive information for book fans. It is written in basic words and never hard to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.
