To save **Indian Tea Association Volume 23-36** eBook, make sure you access the web link beneath and download the ebook or gain access to additional information that are relevant to INDIAN TEA ASSOCIATION VOLUME 23-36 ebook.

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 98 pages. Original publisher: Washington, DC : U. S. Nuclear Regulatory Commission, Office of Nuclear Regulatory Research, 2001. OCLC Number: (OCoLC)53025479 Subject: Fuel burnup (Nuclear engineering) Excerpt: . . . FOREWORD In 1999 the United States Nuclear Regulatory Commission ( U. S. NRC ) issued initial recommended guidance for using reactivity credit due to fuel irradiation ( i. e. , burnup credit ) in the criticality safety analysis of spent pressurized-water-reactor ( PWR ) fuel in storage and transportation packages. This guidance was issued by the NRC Spent Fuel Project Office ( SFPO ) as Revision 1 to Interim Staff Guidance 8 ( ISG8R1 ) and published in the Standard Review Plan for Transportation Packages for Spent Nuclear Fuel, NUREG-1617 ( March 2000 ). With this initial guidance as a basis, the NRC Office of Nuclear Regulatory Research initiated a program to provide the SFPO with technical information that would: enable realistic estimates of the subcritical margin for systems with spent nuclear fuel ( SNF ) and an increased understanding of the phenomena and parameters that impact the margin, and support the development of technical bases and recommendations for effective implementation of burnup credit and provide realistic SNF acceptance criteria while maintaining an adequate margin of safety. One restriction recommended by the ISG8R1 is to preclude assemblies irradiated with burnable absorbers from being used in a cask that implements burnup credit. Since a large portion ( perhaps 50 or more ) of the discharged SNF inventory has been exposed to burnable absorbers, this restriction was identified as a potentially unnecessary and costly restriction that could be removed with improved understanding of the impact of burnable absorbers on SNF reactivity in transportation and storage environments. Burnable absorbers used in...
